Over Dimension/Weight Permit

Permission is hereby granted to _____ of
Company Name

_____, _____, to move _____
City State Description of Item

over the following Sully County Highways, _____.

Overall Width _____ Height _____

Length _____ Weight _____

All traction power used to move the structure must be mounted on rubber tires. Moving trucks to be used under the building must be of rubber type wheels with sufficient bearing to avoid all damage to the highways and bridges.

Proper flags and warning signs must be used on the structure being moved and on the machinery and equipment connected with the moving operations, to protect, and inform the traveling public using said highways. A flagman must be placed a quarter of a mile in front and a quarter of a mile in rear of moving building.

Movement of the structure must be done in daylight hours and removed from the highway right of way before darkness. This permit does not apply, if at any time, the visibility is less than one quarter mile.

The Sully County Highway Department holds you financially responsible for all damage to the highways and bridges.

Permit does not include or cover any special rules or regulations in connection with the entering and passing over any railroad-grade crossing.

Authority for the above permit is granted in accordance with all current State Laws in effect on date of permit.

Permit is hereby granted for the days of _____.

JJ Schall
Highway Superintendent
